

Clackamas to Columbia (C2C) Corridor Plan

>>> Task 7.1 Investment Packages and
Project Evaluation Memorandum

INTRODUCTION

This memorandum describes the methodology and creation of investment packages for the Clackamas to Columbia (C2C) Corridor Plan. All the projects within the C2C corridor were previously identified through other planning and public engagement efforts within the cities of Gresham and Happy Valley and Clackamas and Multnomah counties. These projects were then evaluated in *Task 6.1: Project List Memorandum* and reviewed with Project Partners¹ to ensure all projects within the corridor were properly identified and assessed from a cost and performance perspective. These projects are located directly on, roadways intersecting, or projects substantially impacting/supporting the C2C Corridor. This memorandum identifies eight potential packages of investments, combining these projects based on the proposed investment package methodology, for review by the partnering agencies and public.

Projects were developed through other planning efforts which included extensive public outreach. The C2C Corridor Plan does not seek to develop individual projects, but to consolidate those established into a unified, cross-jurisdictional plan. Additionally, this document identifies the priorities for the C2C Corridor, and does not reflect countywide or citywide project priorities for each of the jurisdictions. For example, the Sunrise Corridor is a high priority for Clackamas County. The Sunrise Corridor is not the top priority for the C2C Corridor, which prioritizes north-south connectivity in the east Metro area.

INVESTMENT PACKAGE METHODOLOGY

The methodology for developing investment packages considers their inclusion in the Metro Regional Investment Measure, criticality to establishing a multimodal C2C mainline, potential to be funded and/or constructed by development frontage improvements, and their evaluation score.

Establishing a complete multimodal C2C mainline is the highest priority for the corridor. Thus, mainline projects proposed to be either partially or fully funded by Metro Regional Investment Measure were identified as Package #1. Second, remaining projects on the C2C mainline were evaluated for their potential to be funded and/or constructed by development. Those that were less likely to be funded by development and more likely to need to be capital projects were identified as Package #2. The highest score capital projects were collected into Package #3, as these projects are anticipated to be needed in order to support future development along 172nd Avenue and the 172nd-190th Connector which are included in package #4. While some could be funded by development, the implementation and success of other projects in the region depend on the mainline, and thus the C2C mainline projects with development projects would need to be constructed soon after, therefore those projects are designated as Package #4.

The remaining projects were sorted by their likelihood to be driven by development and their respective evaluation scores (see *Memo 6.1 – Project List Memorandum* for further details on scoring criteria). Those likely to

¹ Evaluation for Project #19, Rock Creek Improvements, was modified since *Task 6.1: Project List Memorandum* as it provides increased safety within a school zone and connectivity for multiple modes.

be capital projects (i.e., not funded directly through development projects) were further sorted by score, with highest score projects being Package #3, medium score Package #5, and lower score Package #6. Projects that were not critical to the mainline and were likely to be funded and/or constructed by development were in the last set of investment packages, with higher scored projects as Package #7 and lower scored projects as Package #8.

INVESTMENT PACKAGES

The section summarizes the project ranking from *Task 6.1: Project List Memorandum* and expands on these rankings to include whether projects were included in the Metro Regional Investment Measure, have potential to be funded and/or constructed by development, or have additional funding sources and partners that could support these projects. From this, projects were organized into investment packages.

PROJECT RANKING SUMMARY

Task 6.1: Project List Memorandum evaluated and scored projects based on the following categories: safety and security, equitable transportation, multimodal mobility, livability and accessibility, economic development, fiscal stewardship, and connectivity. The scores in each of the categories were then totaled and those totals became a key consideration to rank the projects. Table 1 shows summarized scores and also provides more information on whether these projects were included in the Metro Regional Investment Measure, whether they have potential to be development-driven, and what other potential sources of funding are available for the projects. Details on the ranking process can be found in Table A-1 in Appendix A.

Several projects for C2C are included in the Metro Regional Investment Measure, which will be voted on in November 2020. In Table 1, projects 5, 9, and 14 are described as "Partial: interim improvement" as the funding measure doesn't fully fund the complete project as identified in Memo 6.1. Project 5 is the 190th/Highland Bridge Replacement, which does not include all the costs estimated as part of *Memo 6.2: SE 190th Drive Refinement Plan*. The costs associated with the upstream and downstream tie-in considerations such as the need to carry the cross-section further south, narrowing after SW Linneman Avenue south of bridge were not included in the regional investment measure package. Project 9 is the 172nd/Foster Roundabout, which is proposed to be funded for a single-lane roundabout without the bypass eastbound right-turn lane needed to operate under capacity in 2040. Lastly, project 14 is the 172nd-190th Connector which is proposed to be funded at 2-lanes, not the ultimate 5-lane cross-section. All projects proposed to be partially funded by the Metro Regional Investment Measure will have the remaining funding need added to a later investment package depending on the other criteria.

Some projects are noted as having potential to be development driven, meaning nearby lands are undeveloped and future development may build all or a portion of a project. Built-out areas are less likely to be redeveloped and are considered to be likely capital projects. Additionally, improvements such as bridges, new roadways, or projects with substantial right-of-way needs across multiple parcels are also more likely to be capital projects.

Table 1. Project Ranking Summary

Map ID	Project Title	Adjusted 2020 Cost	Total Score	Metro Regional Investment Measure	Potential for Development-Driven	Additional Funding Source and Partners
1	Enhanced Transit on C2C	Funded through Expanded Service District; Other Funds	11.7	No	No	Expanded Service District Tax Revenue
2	181 ST Avenue Improvements	\$41,000,000 - \$62,000,000	12.7	Yes	No	
3	182 nd Avenue Improvements		12.7	Yes	No	
4	Powell and Division/ 182 nd Avenue Improvements	\$2,093,000	5.5	No	No	
5	190 th /Highland Bridge Replacement	\$10,210,000 - \$16,398,000 *Dependent on selected bridge alternative	10	Partial; Interim Improvement	No	
6	SE 190th Drive Improvements	\$32,019,000 *Not Including Right-of-Way (ROW)	11.7	No	Partial	
7	Giese Road Extension & Improvements	\$22,714,000 + 2 Stream Crossings *Not Including ROW	6.3	No	No	
8	Pleasant Valley 172nd Avenue Extension & Improvements	\$13,020,000 + 1 stream crossing *Not Including ROW	7.3	No	No	
9	172 nd /Foster Roundabout	\$4,118,000	6.7	Partial; Interim Improvement	No	
10	Foster Road Improvements	\$7,593,000 + 2 stream crossings *Not Including ROW	8.2	No	Yes	
11	Clatsop Street Extension	\$4,302,000	6.3	No	No	
12	Cheldelin Extension & Road Improvements	\$12,000,000	7.7	No	Yes	
13	172 nd Avenue Widening North	\$10,000,000	7.3	No	Yes	
14	172 nd -190 th Connector	\$41,958,000 *Not Including ROW	13	Partial; Interim Improvement	No for 2-lane; Yes for widening	
15	172 nd Avenue Improvements	\$43,000,000	12	No	Yes	
16	Foster Road	\$28,000,000	4.2	No	Yes	

Map ID	Project Title	Adjusted 2020 Cost	Total Score	Metro Regional Investment Measure	Potential for Development-Driven	Additional Funding Source and Partners
17	Tillstrom Road	\$15,054,000	4.2	No	Yes	
18	SE Sunnyside Rd East Extension	\$13,159,000	1.8	No	No	
19	Rock Creek Boulevard Improvements	\$13,539,000	3.8	No	Yes	
20	Sunrise Phase 1	\$170,110,000 - \$177,520,000	11	Yes	No	ODOT
21	Sunrise Phase 2	\$326,879,000	11	No	No	ODOT
22	Sunrise Phase 3	\$19,998,000	11	No	No	ODOT

INVESTMENT PACKAGES

Each of the projects were assigned to eight investment packages. The following sections and Figure 1 illustrate these project packages.

Package 1: Metro Regional Investment Measure Projects

Package 1 contains projects proposed to be fully and partially funded through the Metro Regional Investment Measure, as shown in Table 2. Projects that are partially funded have the remaining project needs added to another package based on its presence on the C2C mainline, potential for development, and additional funding sources and partners. Package 1 projects are shown in gray in Figure 1.

Table 2. Investment Package 1

Map ID	Project Title	Adjusted 2020 Cost	Total Score	Metro Regional Investment Measure	Potential for Development-Driven	Additional Funding Source and Partners
2	181 ST Avenue Improvements	\$41,000,000 - \$62,000,000	13	Yes	No	
3	182 nd Avenue Improvements		13	Yes	No	
5	190 th /Highland Bridge Replacement	\$9,000,000 - \$12,000,000 ¹	10	Partial; Interim Improvement	No	
9	172 nd /Foster Roundabout	\$5,000,000 - \$6,000,000	6.7	Partial; Interim Improvement	No	
14	172 nd -190 th Connector	\$40,000,000 - \$54,000,000 ¹	13	Partial; Interim Improvement	No for 2-lane; Yes for widening	
20	Sunrise Phase 1	\$170,110,000 - \$177,520,000	11	Yes	No	ODOT
21	Sunrise Phase 2 Planning and Design	\$50,000,000	11	Yes	No	ODOT
Total Package Price				\$315,110,000 - \$361,520,000		

¹Estimate for interim Highland Bridge, 172nd/Foster roundabout, and 2-lane facility from Metro Regional Investment Measure work, including right-of-way.

Package 2: C2C Mainline Capital Projects

Package 2 contains projects located along the C2C mainline which are unlikely to be constructed through development as shown in Table 3. Package 2 projects are shown in red in Figure 1. Package 2 projects also include enhanced transit on the C2C Corridor. While frequent service may not be immediately needed and/or feasible in the near-term, the corridor will be complete within Package 2 and benefit from transit services. As densities in the area grow, transit can be improved to meet “enhanced transit” criteria. Clackamas County is currently producing a Transit Development Plan (TDP) to assess the densities and associated frequencies for transit in the County, including the C2C Corridor.

Table 3. Investment Package 2

Map ID	Project Title	Adjusted 2020 Cost	Total Score	Metro Regional Investment Measure	Potential for Development-Driven	Additional Funding Source and Partners
1	Enhanced Transit on C2C	Funded through Expanded Service District	12	No	No	Expanded Service District Tax Revenue
5	190 th /Highland Bridge Replacement	\$1,210,000 - \$4,398,000 ¹	10	Partial; Interim Improvement	No	
6	SE 190th Drive Improvements + ROW	\$32,019,000	12	No	Partial	
Total Package Price				\$33,229,000 - \$36,417,000 + ROW for Project 6		

¹Difference between Metro Regional Investment Measure estimate and SE 190th Drive Refinement Memorandum Estimate.

Package 3: High Score Capital Projects

Package 3 contains projects which were likely to be capital projects and were higher scored than others, as shown in Table 4. Package 3 projects are shown in yellow in Figure 1. These projects are anticipated to be needed to support future development along 172nd Avenue and the 172nd-190th Connector. Constructing these will promote development-driven improvements for the next package.

Table 4. Investment Package 3

Map ID	Project Title	Adjusted 2020 Cost	Total Score	Metro Regional Investment Measure	Potential for Development-Driven	Additional Funding Source and Partners
21	Sunrise Phase 2 Construction	\$276,879,000	11	No	No	ODOT
22	Sunrise Phase 3	\$19,998,000	11	No	No	ODOT
Total Package Price				\$296,877,000		

Package 4: C2C Mainline Development Projects

Package 4 contains projects located along the C2C mainline which are likely to be constructed through development (e.g., half street improvements and improvements in undeveloped areas) as shown in Table 5. Package 4 projects are shown in orange in Figure 1.

Table 5. Investment Package 4

Map ID	Project Title	Adjusted 2020 Cost	Total Score	Metro Regional Investment Measure	Potential for Development-Driven	Additional Funding Source and Partners
14	172 nd -190 th Connector	\$10,288,000 ¹	13	Partial; Interim Improvement	No for 2-lane; Yes for widening	
15	172 nd Avenue Improvements	\$43,000,000	12	No	Yes	
Total Package Price				\$53,288,000		

¹Cost differential between 5-lane and 2-lane cost estimates. Actual value may differ, depending on amount of 2-lane facility that is forward-compatible.

Package 5: Medium Score Capital Projects

Package 5 contains projects which were likely to be capital projects and had moderate scores compared to other capital projects, as shown in Table 6. Package 5 projects are shown in green in Figure 1.

Table 6. Investment Package 5

Map ID	Project Title	Adjusted 2020 Cost	Total Score	Metro Regional Investment Measure	Potential for Development-Driven	Additional Funding Source and Partners
7	Giese Road Extension & Improvements	\$22,714,000 + 2 Stream Crossings	6.3	No	No	
8	Pleasant Valley 172 nd Avenue Extension & Improvements	\$13,020,000 + 1 stream crossing	7.3	No	No	
9	172 nd /Foster Roundabout	Dependent on Metro Work ¹	6.7	Partial; Interim Improvement	No	
Total Package Price				\$35,734,000 + 3 Stream Crossings + Project 9 Bypass Lane		

¹Cost to construct eastbound bypass right-turn lane dependent on amount of forward-compatible construction as part of Metro Regional Investment Measure. Cost anticipated to be minimal compared to package size.

Package 6: Low Score Capital Projects

Package 6 contains projects which were likely to be capital projects and had lower scores compared to other capital projects, as shown in Table 7. Package 6 projects are shown in blue in Figure 1.

Table 7. Investment Package 6

Map ID	Project Title	Adjusted 2020 Cost	Total Score	Metro Regional Investment Measure	Potential for Development-Driven	Additional Funding Source and Partners
4	Powell and Division/ 182 nd Avenue Improvements	\$2,093,000	5.5	No	No	
11	Clatsop Street Extension	\$4,302,000	6.3	No	No	
18	SE Sunnyside Rd East Extension	\$13,159,000	1.8	No	No	
Total Package Price				\$19,554,000		

Package 7: High Score Development Projects

Package 7 contains projects which were likely to be development-driven and had higher scores compared to other development-driven projects, as shown in Table 8. Package 7 projects are shown in purple in Figure 1.

Table 8. Investment Package 7

Map ID	Project Title	Adjusted 2020 Cost	Total Score	Metro Regional Investment Measure	Potential for Development-Driven	Additional Funding Source and Partners
10	Foster Road Improvements	\$7,593,000 + 2 stream crossings + ROW	8.2	No	Yes	
12	Cheldelin Extension & Road Improvements	\$12,000,000	7.7	No	Yes	
13	172 nd Avenue Widening North	\$10,000,000	7.3	No	Yes	
19	Rock Creek Boulevard Improvements	\$13,539,000	6.5	No	Yes	
Total Package Price				\$43,132,000 + 2 Stream Crossings & ROW for Project 10		

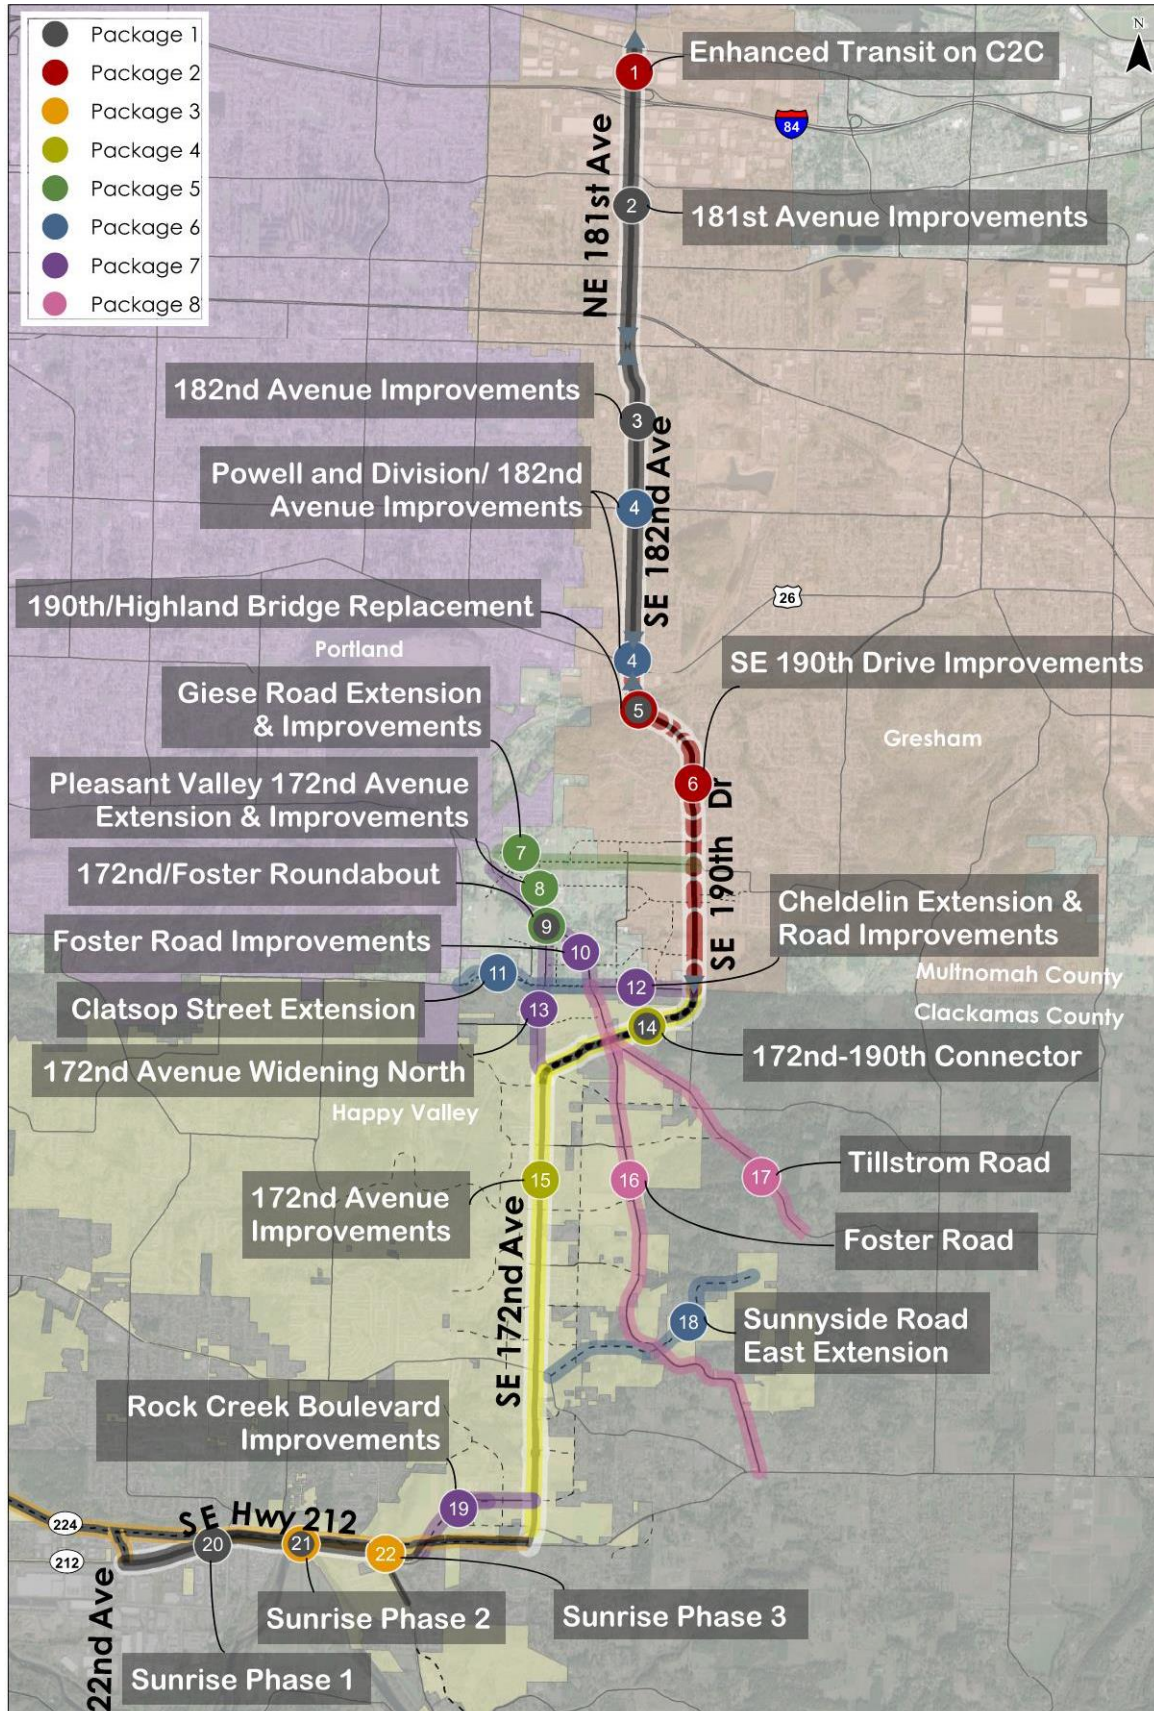

Package 8: Low Score Development Projects

Package 8 contains projects which were likely to be development-driven and had lower scores compared to other development-driven projects, as shown in Table 9. Package 8 projects are shown in pink in Figure 1.

Total Package Price				\$43,054,000		

Figure 1. Investment Packages

NEXT STEPS

This memorandum will be reviewed with the Steering Committee and stakeholders during public outreach for review and comment. The following pages show feedback layouts based on the above information for review by the Steering Committee. The resulting investment packages and prioritization will be finalized as part of the *Preferred Investment Package Memorandum (Task 7.3)*.

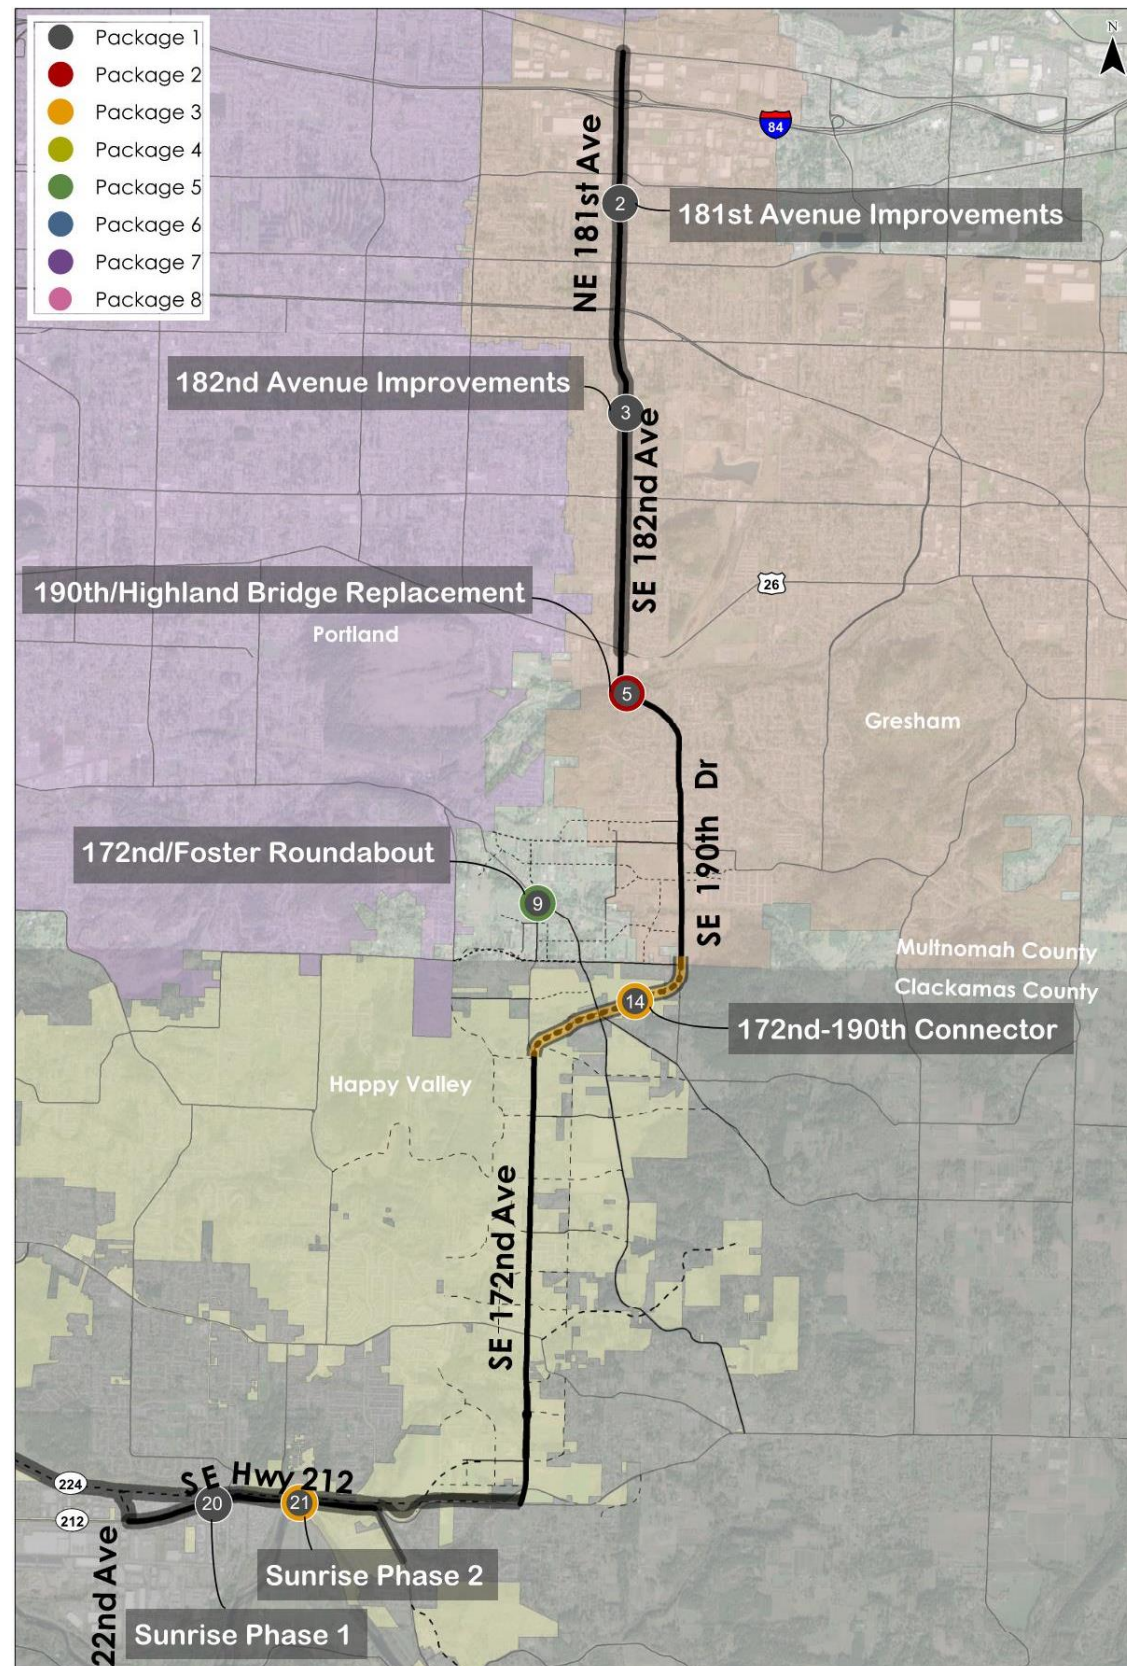

FEEDBACK MATERIALS

A packet will be provided to the steering committee to review the initial investment packages and provide feedback on these. The committee will use a green, yellow, red card concept to assess the level of support for the projects bundled by investment packages.

- ◆ Green: This project makes sense to be included within this package.
- ◆ Yellow: I have concerns or am skeptical, but I will not block this (this will help us identify areas for refinements)
- ◆ Red: This project does not make sense to be included within this package.

Respondents will also provide feedback on if that project should be moved into a different package. The outcomes and consensus from this meeting will confirm the preferred investment packages. The packet materials will include the following sheets.

PACKAGE 1: METRO REGIONAL INVESTMENT MEASURE PROJECTS

Package 1 contains projects proposed to be fully and partially funded through the Metro Regional Investment Measure. Projects that are partially funded have the remaining project need added to another package based on other criteria.

2 & 3 - 181st Avenue Improvements and 182nd Avenue Improvements: Adding complete sidewalks from I-84 to San Rafael, widening from I-84 to Sandy, add turn lanes for Halsey and 181st, Rockwood safety improvements (Stark to I-84), Glisan intersection improvements, Glisan to Yamhill "Complete Boulevard" design improvements, adding turn lanes to Stark and Sandy intersections. Filling sidewalk gaps from Eastwood Court to Division, seven pedestrian crossing additions or improvement along 182nd, and intersection striping and intersection lighting improvements at 182nd and Division.

- Cost: **\$41,000,000 - \$62,000,000 (Total)**
- **Key Benefits:** High score in safety and security, equitable transportation, multimodal mobility, livability and accessibility, economic development, fiscal stewardship.

Level of Support:

5 - 190th/Highland Bridge Replacement: Four-lane bridge replacement with sidewalks and bike facilities as well as a seismic upgrade. Cost estimate differs from ranges identified in SE 190th Drive Refinement Memorandum.

- Cost: **\$9,000,000 - \$12,000,000**
- **Key Benefits:** High score in livability and accessibility, economic development, fiscal stewardship, and connectivity.

Level of Support:

9 - 172nd/Foster Roundabout: Convert intersection to single-lane roundabout to improve safety and ease traffic congestion. Ultimate eastbound bypass right-turn lane not included in Metro Regional Investment Measure.

- Cost: **\$5,000,000 - \$6,000,000**
- **Key Benefits:** High score in safety and security, livability and accessibility, and fiscal stewardship

Level of Support:

14 - 172nd-190th Connector: Provide new connector from 172nd Avenue to 190th Drive. Provide 2-lane vehicle cross-section, bicycle lanes, landscape strip, and sidewalks. Provide roundabouts at Cheldelin Road, Tillstrom Road, and 172nd Avenue. Ultimate 5-lane cross-section not included in Metro Regional Investment Measure.

- Cost: **\$40,000,000 - \$54,000,000**
- **Key Benefits:** High score in safety and security, equitable transportation, multimodal mobility, livability and accessibility, economic development, and connectivity.

Level of Support:

20 - Sunrise Phase 1: Reconstruct roadway including sidewalks, bicycle facilities and crossings to improve access and safety. Grade-separate intersection with 142nd and realign 135th. See full description in appendix.

- Cost: **\$170,110,000 - \$177,520,000**
- **Key Benefits:** High score in safety and security, equitable transportation, multimodal mobility, livability and accessibility, economic development, fiscal stewardship.

Level of Support:

21 - Sunrise Phase 2 Planning and Design: Planning and design for Sunrise Phase 2 (described further below).

- Cost: **\$50,000,000**
- **Key Benefits:** High score in safety and security, equitable transportation, multimodal mobility, livability and accessibility, economic development, and fiscal stewardship.

Level of Support:

PACKAGE 2: C2C MAINLINE CAPITAL PROJECTS

Package 2 contains projects located along the C2C mainline which are unlikely to be constructed through development (e.g. Highland Bridge or improvements along an area that is already developed).

1 - Enhanced Transit on C2C: Provide enhanced transit (arrivals every 15 minutes or better during most of the day) along the C2C Corridor. Shown here in white.

- Cost: **Funded through Expanded Service District**
- **Key Benefits:** High score in equitable transportation, livability and accessibility, economic development, fiscal stewardship, and connectivity.

Level of Support:

Change Package:

5 - 190th/Highland Bridge Replacement: Four-lane bridge replacement with sidewalks and bike facilities as well as a seismic upgrade.

- Cost: **\$1,210,000 - \$4,398,000** depending on alternative
- **Key Benefits:** High score in livability and accessibility, economic development, fiscal stewardship, and connectivity.

Cost reflects difference between Metro Regional Investment Measure estimate and SE 190th Drive Refinement Memorandum Estimate.

Level of Support:

Change Package:

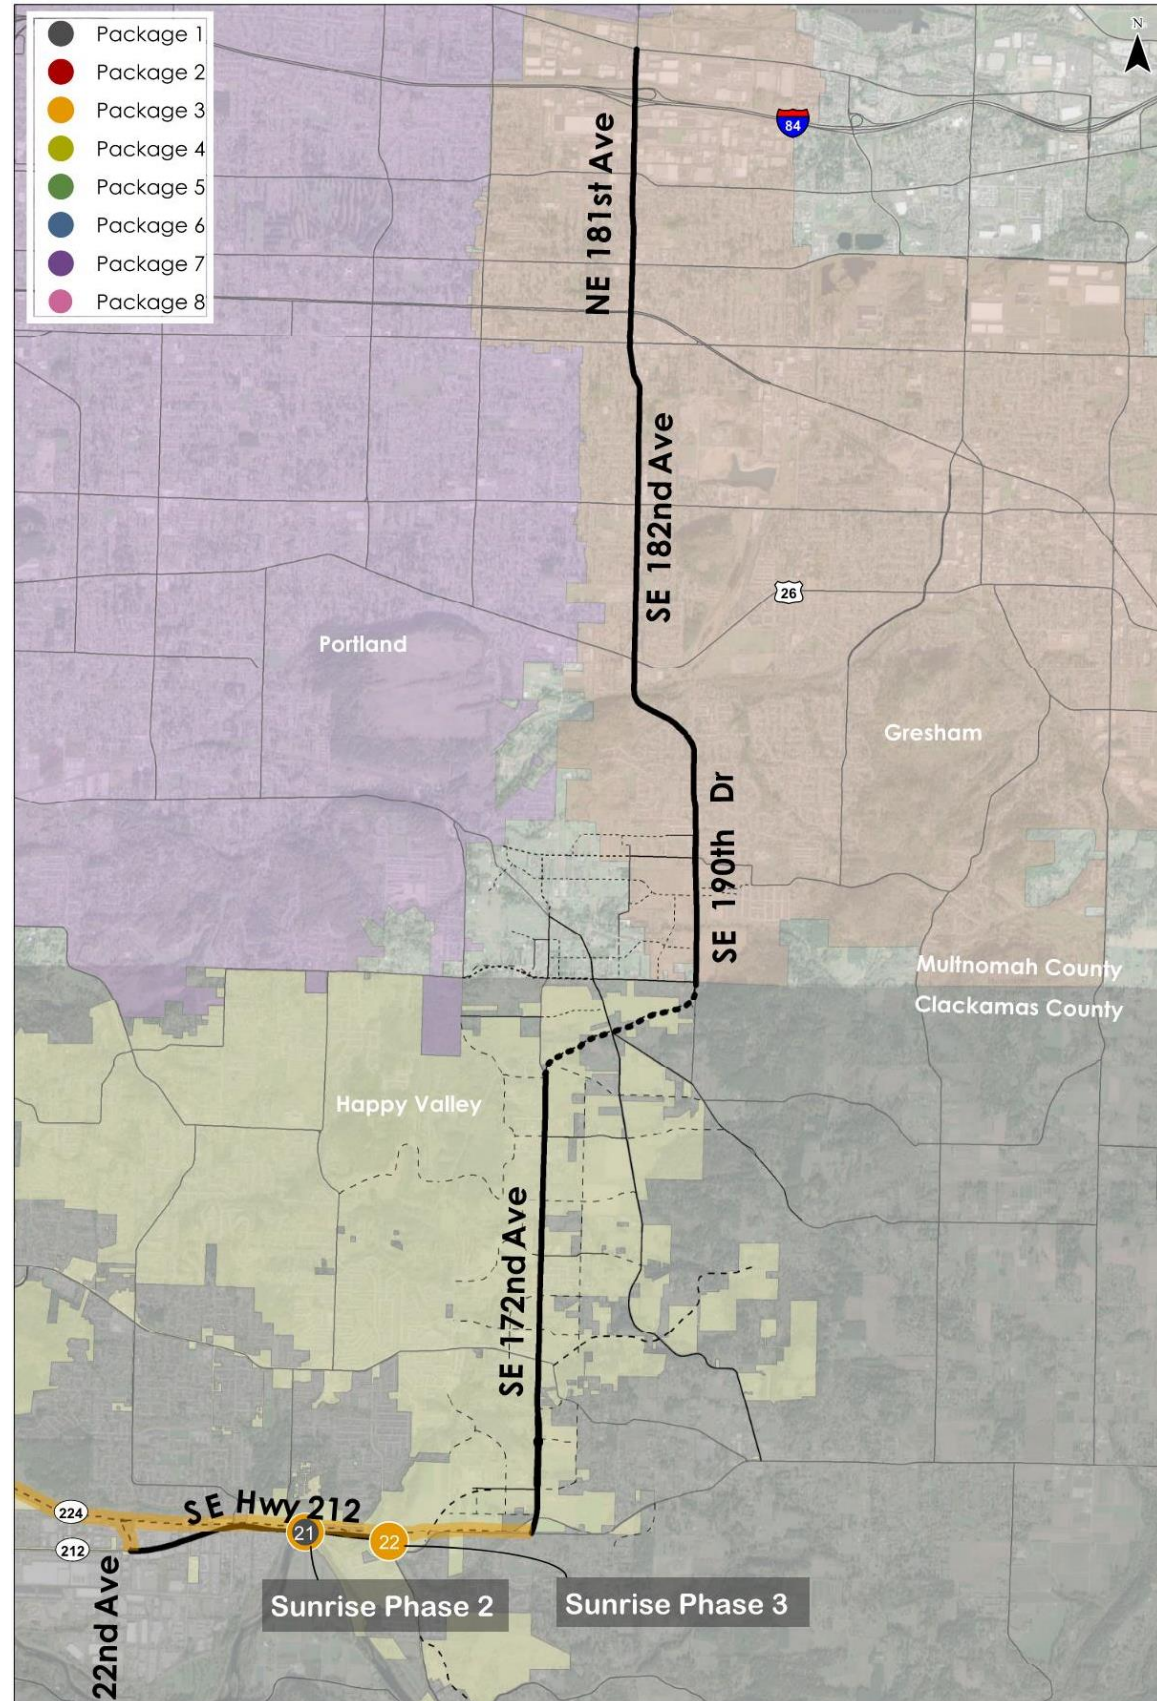

6 - SE 190th Drive Improvements: Widen 190th Drive from Powell Boulevard to Cheldelin Road. Provide 5-lane vehicle cross-section, bicycle lanes, landscape strip, and sidewalks. Signalize or provide roundabouts for 190th at Giese Road, Butler Road, Richey Road, and Cheldelin Road.

- Cost: **\$32,019,000** not including right-of-way
- **Key Benefits:** High score in safety and security, multimodal mobility, livability and accessibility, economic development, fiscal stewardship, and connectivity.

Level of Support:

Change Package:

PACKAGE 3: HIGH SCORE CAPITAL PROJECTS

Package 3 contains projects which were likely to be capital projects and were higher scored than others.

21 - Sunrise Phase 2 Construction: Constructs Sunrise Gateway facility from 142nd Avenue to 172nd Avenue. Provides bridge structure over 152nd Avenue and 162nd Avenue. Includes realignment of 162nd Avenue, new frontage road on southeast quadrant of Sunrise Gateway/162nd Avenue, and signalized at-grade intersection with SE 172nd Avenue. Constructs Sunrise Gateway facility from 122nd Avenue to 142nd Avenue. Provides 122nd Avenue intersection for forward-compatibility with complete access-control. Constructs a grade-separated bicycle and pedestrian crossing at 135th Avenue.

- Cost: **\$276,879,000**
- **Key Benefits:** High score in safety and security, equitable transportation, multimodal mobility, livability and accessibility, economic development, and fiscal stewardship.

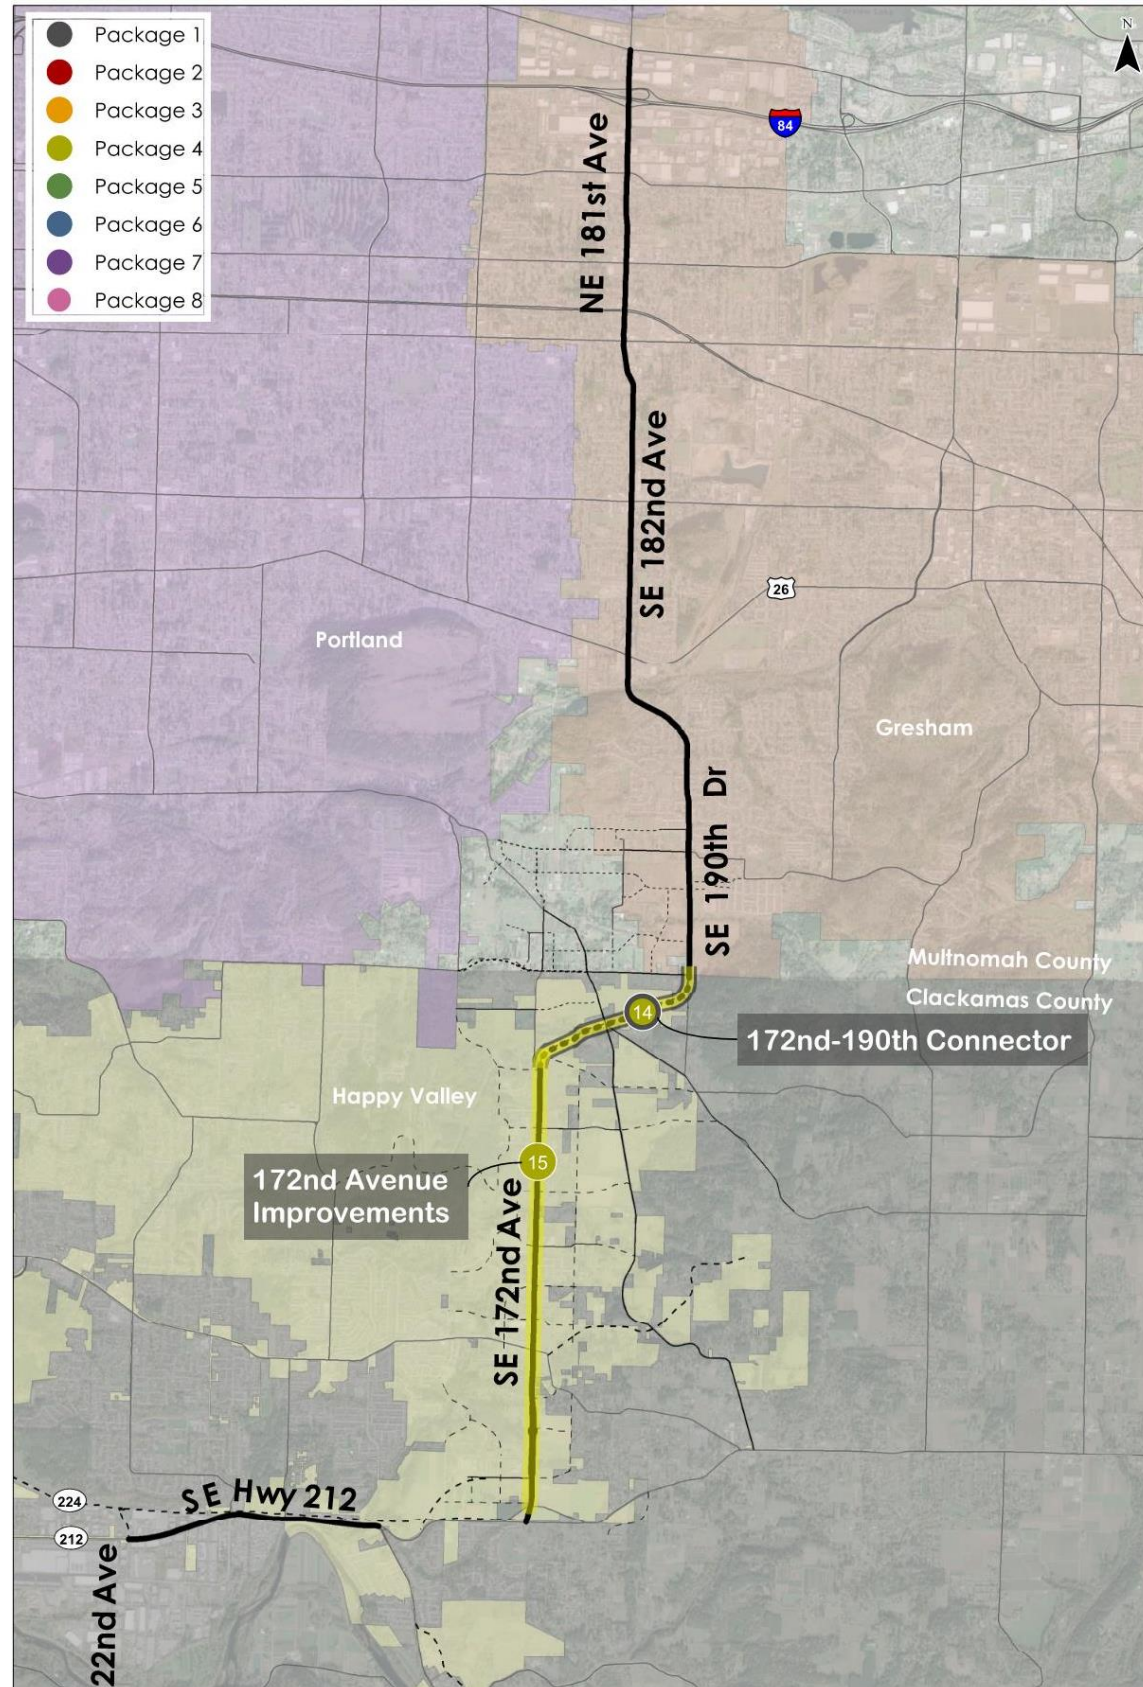

22 - Sunrise Phase 3: Constructs roundabout at Rock Creek Junction (OR 212/162nd Avenue intersection) and provides 4 vehicle lanes, median, bicycle lanes, landscape buffers, and shared-use paths on Highway 212 from 152nd Avenue to 162nd Avenue.

- Cost: **\$ 19,998,000**
- **Key Benefits:** High score in safety and security, equitable transportation, multimodal mobility, livability and accessibility, economic development, and fiscal stewardship.

PACKAGE 4: C2C MAINLINE DEVELOPMENT PROJECTS

Package 4 contains projects located along the C2C mainline which are likely to be constructed through development (e.g., half street improvements and improvements in undeveloped areas).

14 - 172nd-190th Connector: Widen to 5-lane vehicle cross-section, bicycle lanes, landscape strip, and sidewalks. Provide roundabouts at Cheldelin Road, Tillstrom Road, and 172nd Avenue.

- Cost: **\$\$10,288,000** cost differential between 5-lane and 2-lane cost estimates. Actual value may differ, depending on amount of 2-lane facility that is forward-compatible
- **Key Benefits:** High score in safety and security, equitable transportation, multimodal mobility, livability and accessibility, economic development, and connectivity.

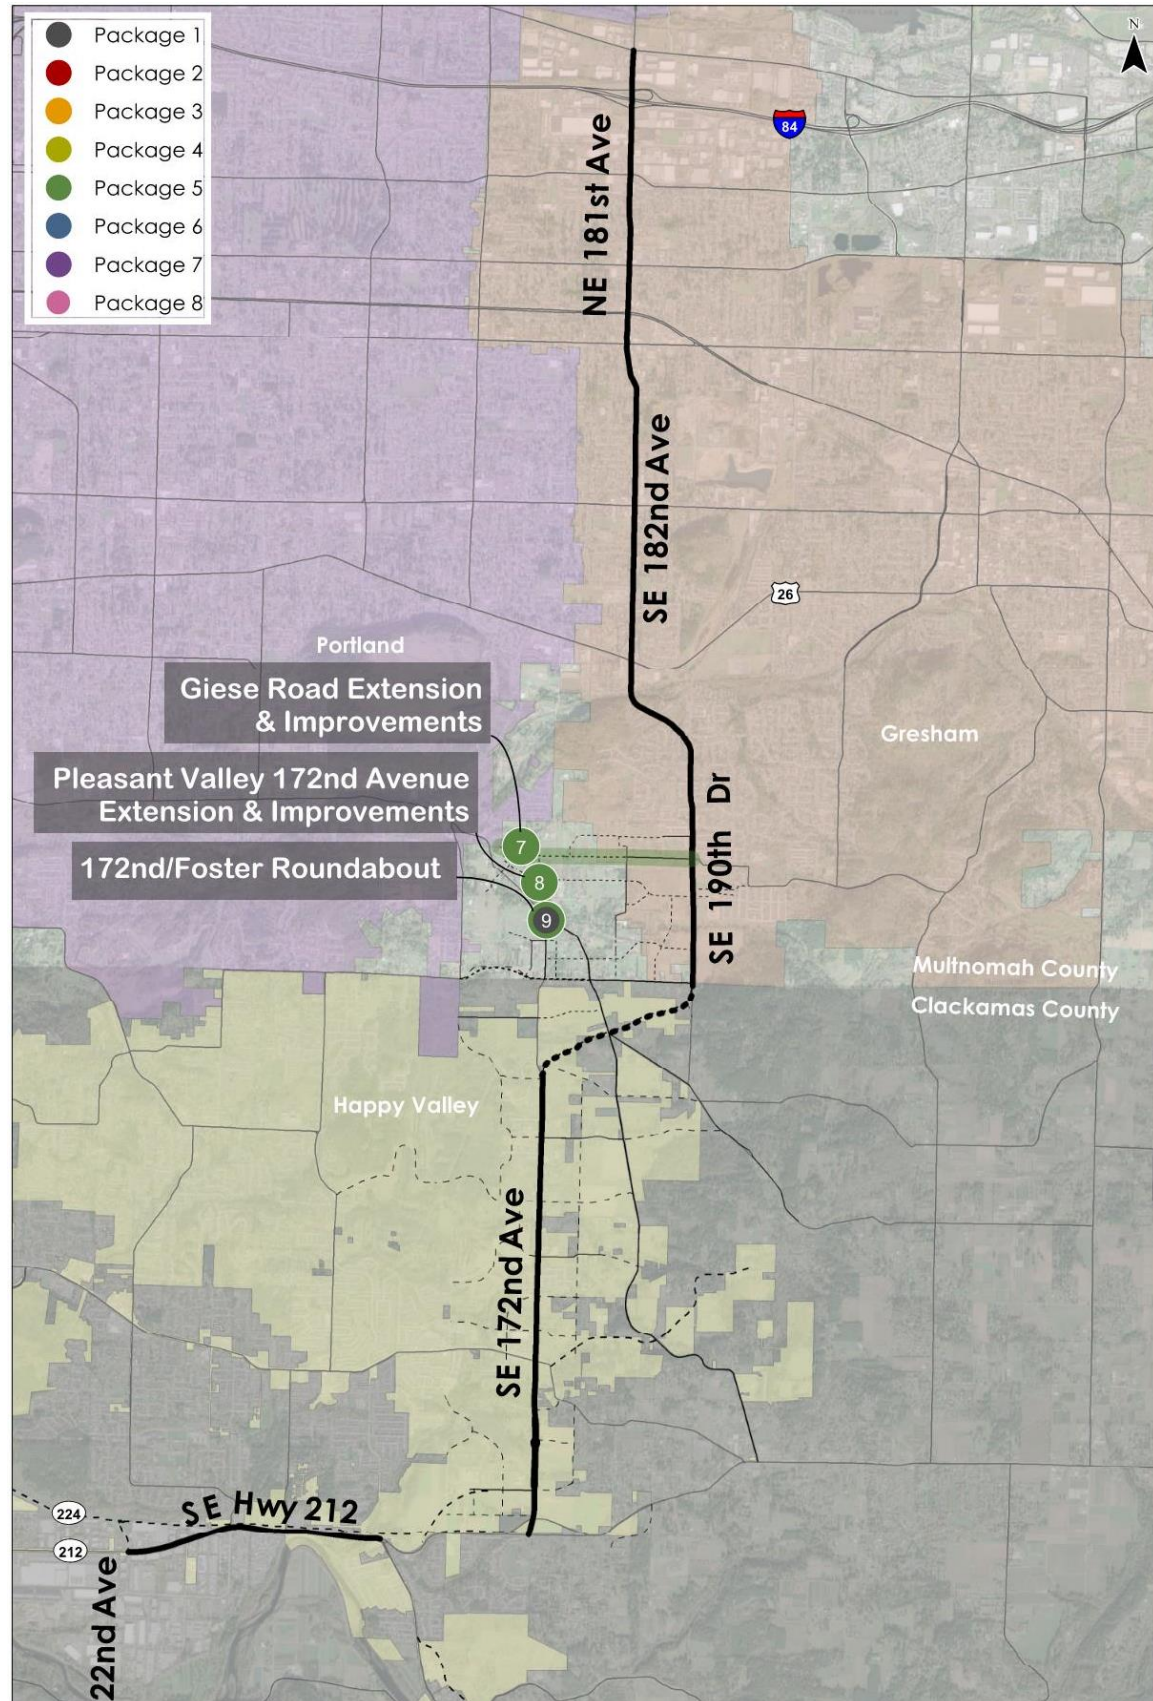

15 - 172nd Avenue Improvements: Widen 172nd Avenue from Connector to Sunnyside Road. Provide 5-lane vehicle cross-section, bicycle lanes, landscape strip, and sidewalks. Provide roundabouts at Hemrich Road and Scouter Mountain Road and signalize Troge Road and Vogel Road.

- Cost: **\$43,000,000**
- **Key Benefits:** High score in safety and security, multimodal mobility, livability and accessibility, economic development, fiscal stewardship, and connectivity.

PACKAGE 5: MEDIUM SCORE CAPITAL PROJECTS

Package 5 contains projects which were likely to be capital projects and had moderate scores compared to other capital projects.

7 - Giese Road Extension & Improvements: Extend Giese Road from Foster Road to 182nd Avenue. Widen Giese Road from 182nd Avenue to 190th Drive. Provide 3-lane vehicle cross-section, bicycle lanes, landscape strip, and sidewalks.

- Cost: **\$22,714,000 + 2 Stream Crossings and Right-of-Way**
- **Key Benefits:** High score in livability and accessibility, economic development

Level of Support:

Change Package:

8 - Pleasant Valley 172nd Avenue Extension & Improvements: Extend 172nd Avenue from Foster Road to Giese Road. Widen 172nd Avenue from Foster Road to Cheldelin Road. Provide 3-lane vehicle cross-section, bicycle lanes, landscape strip, and sidewalks.

- Cost: **\$13,020,000 + 1 Stream Crossings and Right-of-Way**
- **Key Benefits:** High score in livability and accessibility, economic development

Level of Support:

Change Package:

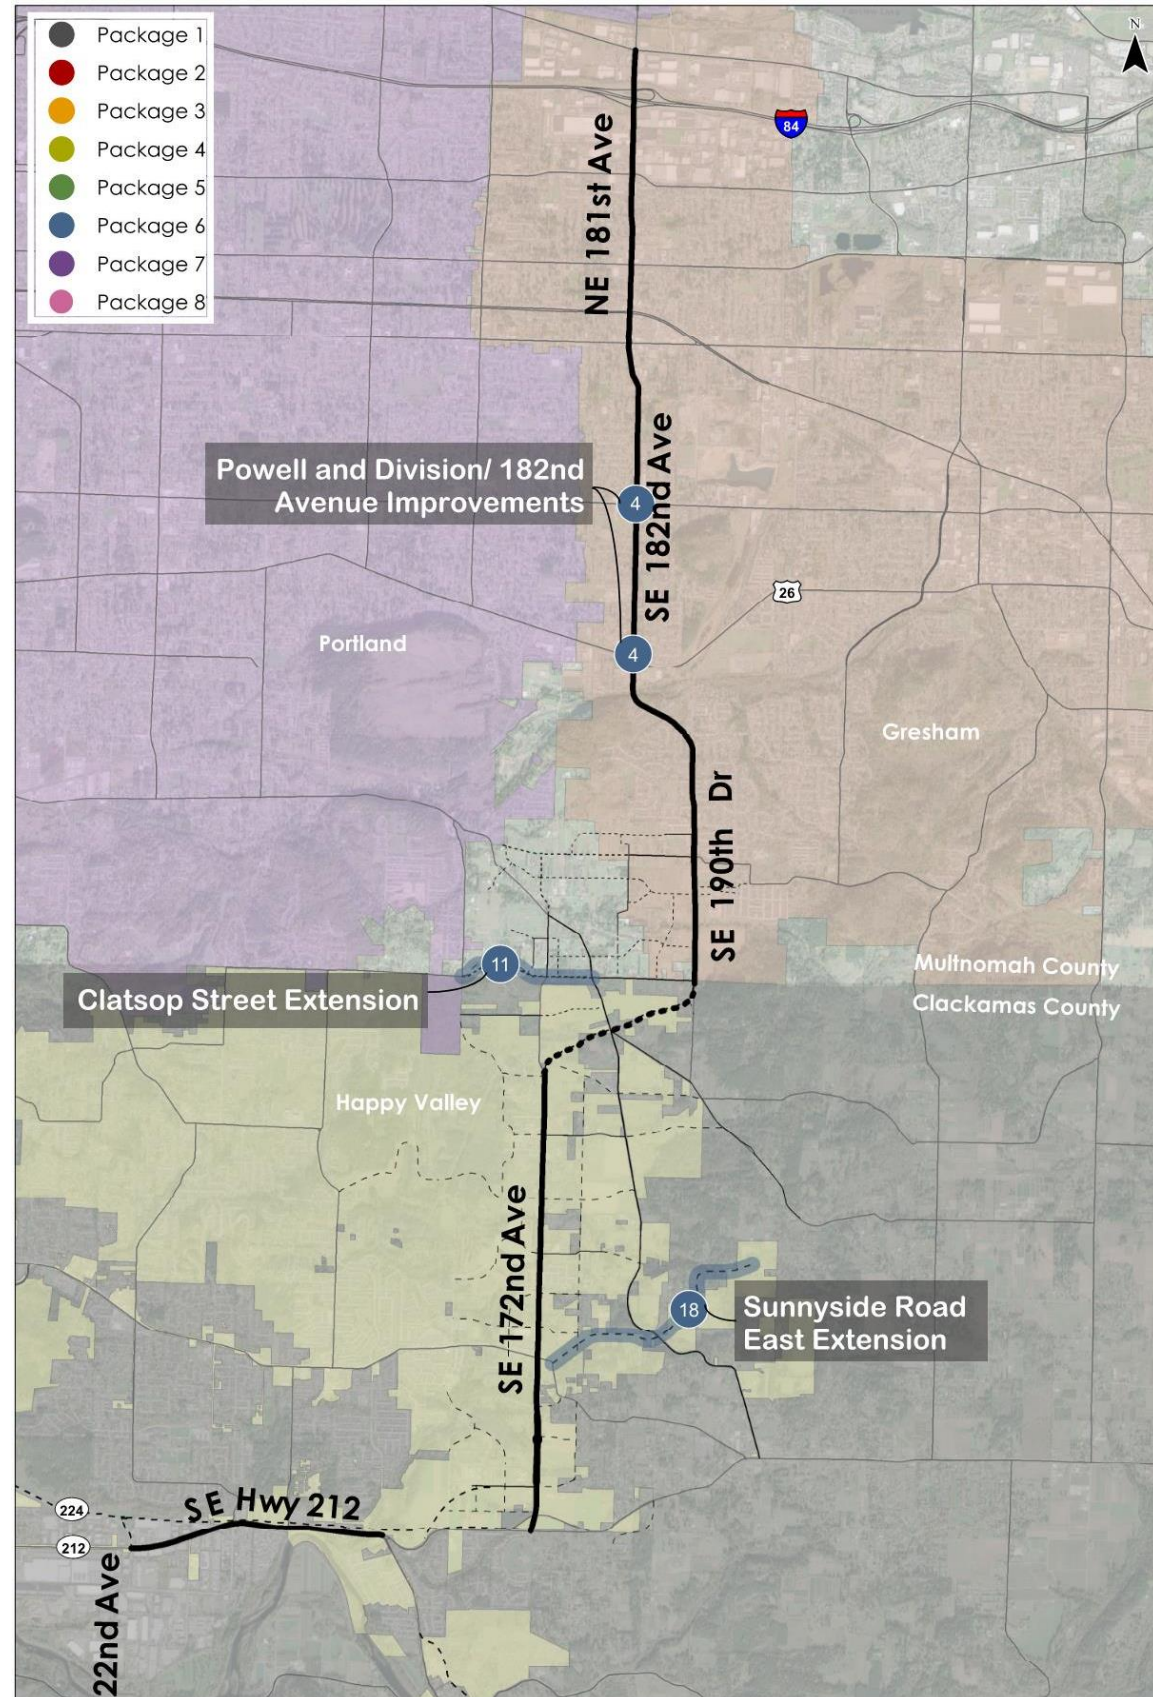

9 - 172nd/Foster Roundabout: Add eastbound bypass right-turn lane to improve safety and ease traffic congestion.

- Cost: Dependent on Metro work; Cost to construct eastbound bypass right-turn lane dependent on amount of forward-compatible construction as part of Metro Regional Investment Measure. Cost anticipated to be minimal compared to package size.
- **Key Benefits:** High score in safety and security, livability and accessibility, and fiscal stewardship

Level of Support:

Change Package:

PACKAGE 6: LOW SCORE CAPITAL PROJECTS

Package 6 contains projects which were likely to be capital projects and had lower scores compared to other capital projects.

4 - Powell and Division/ 182nd Avenue Improvements: Add a second westbound left turn lane at Division, add northbound and southbound double left- turn lanes and through lanes at Powell, and add transit/enhanced transit corridor supportive projects.

- Cost: **\$2,093,000**
- **Key Benefits:** High score in economic development and fiscal stewardship

Level of Support

11 - Clatsop Street Extension: Extend Clatsop Street from 162nd Avenue to 172nd Avenue. Provide 3-lane vehicle cross-section, bicycle lanes, landscape strip, and sidewalks.

- Cost: **\$4,302,000**
- **Key Benefits:** High score in livability and accessibility, economic development

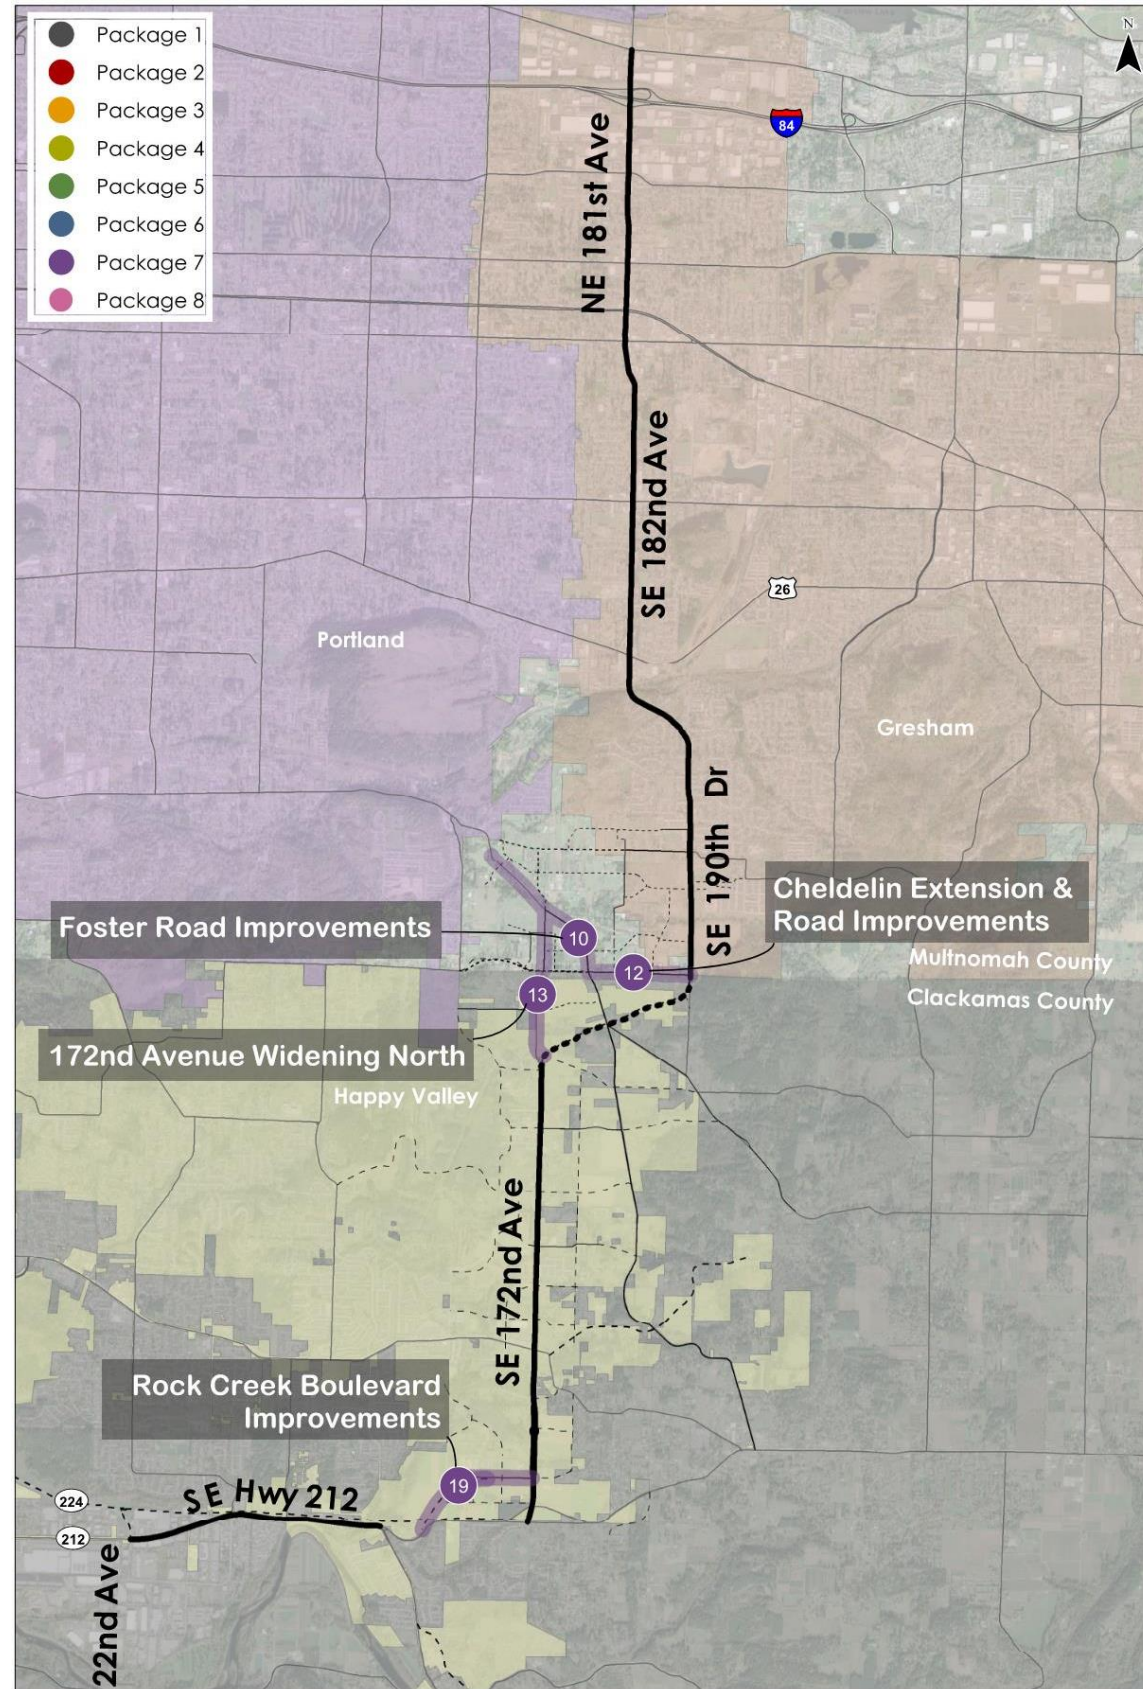

Level of Support

18 - SE Sunnyside Rd East Extension: Construct new 5-lane road with continuous left turn lane, sidewalks, bike lanes and traffic signals.

- Cost: **\$13,159,000**
- **Key Benefits:** High score in livability and accessibility

Level of Support

PACKAGE 7: HIGH SCORE DEVELOPMENT PROJECTS

Package 7 contains projects which were likely to be development-driven and had higher scores compared to other development-driven projects.

10 - Foster Road Improvements: Provide improvements to create town center consistent with Happy Valley Pleasant Valley - North Carver Land Use Transportation Plan. Widen Foster Road from 172nd Avenue to Cheldelin Road. Provide 3-lane vehicle cross-section, bicycle lanes, landscaped median, landscape strip, and sidewalks.

- Cost: **\$7,593,000 + 2 stream crossings *Not Including Right-of-Way***
- **Key Benefits:** High score in safety and security, livability and accessibility, and economic development

Level of Support

Change Package

12 - Cheldelin Extension & Road Improvements: Extend Cheldelin Road from 172nd Avenue to Foster Road. Widen Cheldelin Road from Foster Road to 190th Drive. Provide 3-lane vehicle cross-section, bicycle lanes, landscape strip, and sidewalks.

- Cost: **\$12,000,000**
- **Key Benefits:** High score in safety and security, livability and accessibility, and economic development

Level of Support

Change Package

13 - 172nd Avenue Widening North: Widen 172nd Avenue to 3-lane vehicle cross-section, bicycle lanes, landscape strip, and sidewalks between 172nd-190th Connector to Cheldelin Road.

- Cost: **\$10,000,000**
- **Key Benefits:** High score in livability and accessibility, economic development

Level of Support

Change Package

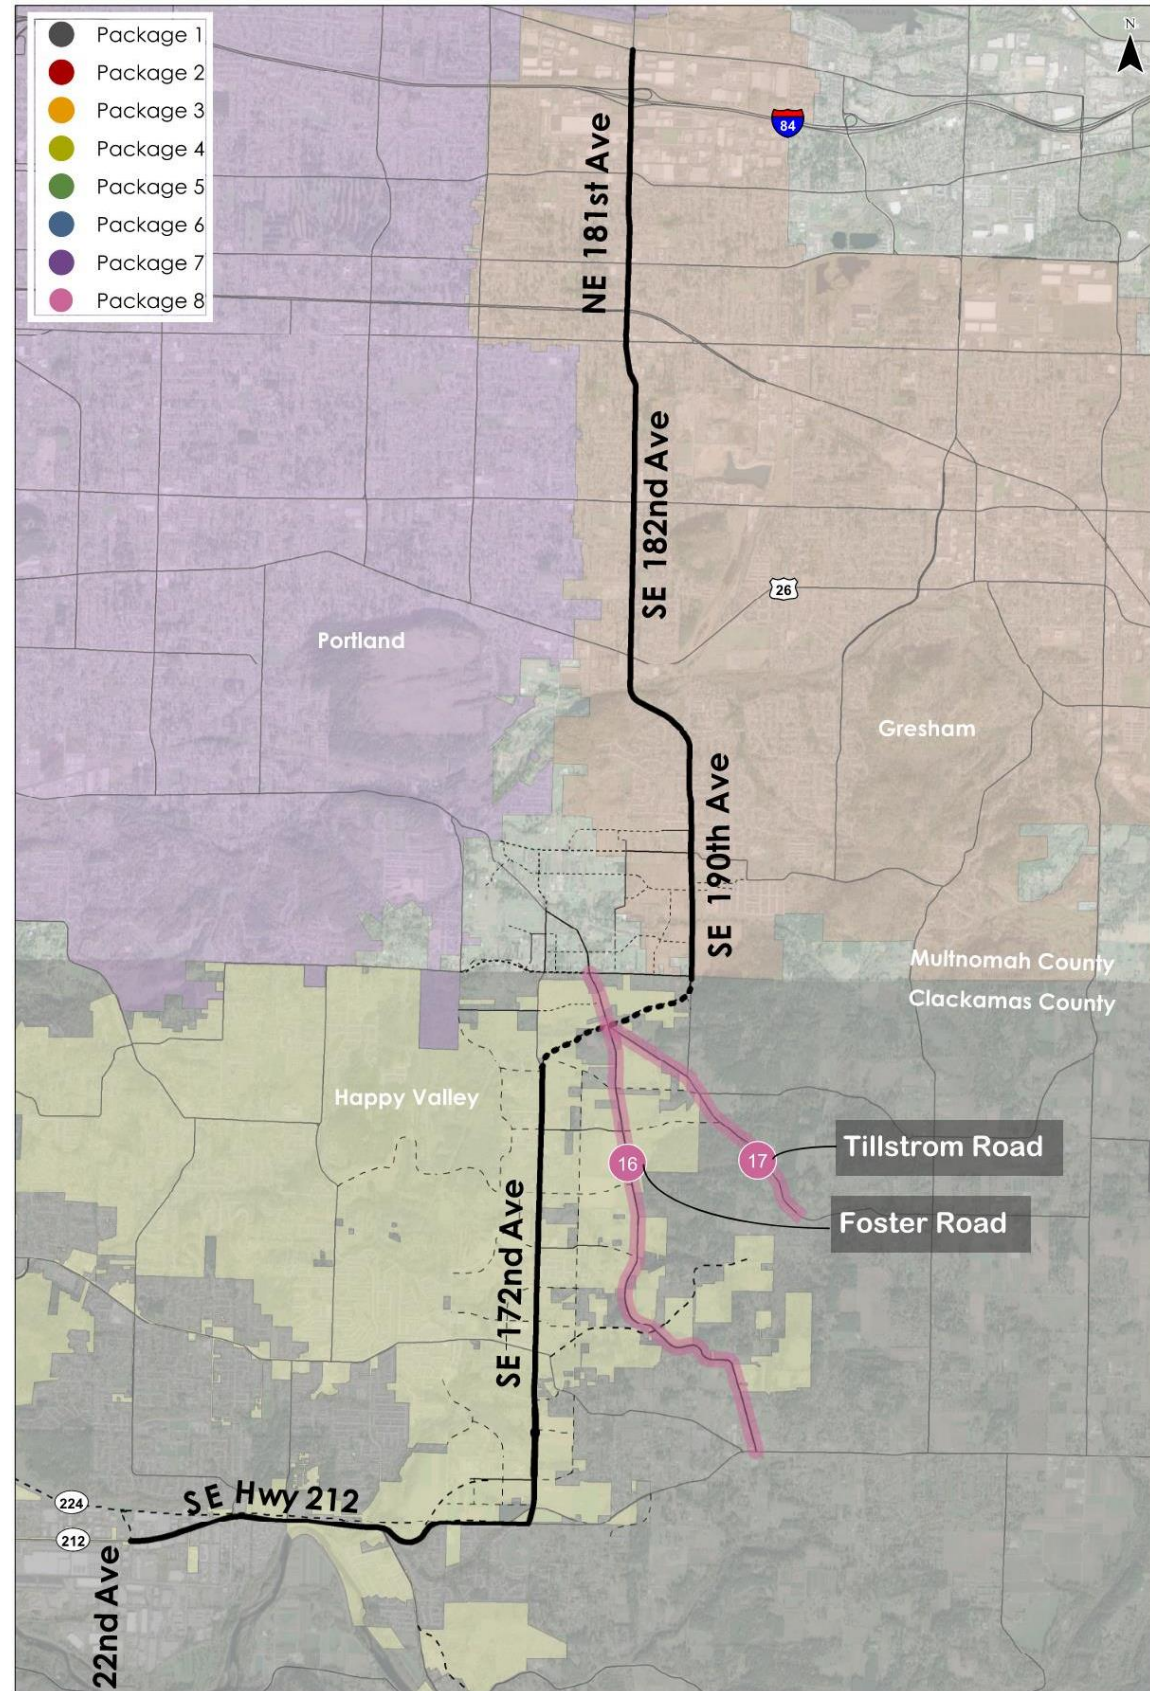

19 - Rock Creek Boulevard Improvements: Construct new 5-lane vehicle cross-section from Sunrise Corridor Rock Creek interchange to 162nd Avenue; Widen existing alignment of Rock Creek Boulevard to five lanes from 162nd to 177th Avenue. Facility improvements include continuous left turn lane, sidewalks, bike lanes and traffic signals. In addition, will improve safety on a High Injury Corridor.

- Cost: **\$13,539,000**
- **Key Benefits:** High score in economic development and connectivity.

Level of Support

Change Package

PACKAGE 8: LOW SCORE DEVELOPMENT PROJECTS

Package 8 contains projects which were likely to be development-driven and had lower scores compared to other development-driven projects.

16 - Foster Road: Provide 3-lane vehicle cross-section, bicycle lanes, landscape strip, and sidewalks from Cheldelin Road to Sunnyside Road.

- Cost: **\$28,000,000**
- **Key Benefits:** High score in safety and security

Level of Support

Change Package

17 - Tillstrom Road: Widen Tillstrom Road and realign at Foster Road at a stop-controlled intersection. Provide 3-lane vehicle cross-section, bicycle lanes, landscape strip, and sidewalks.

- Cost: **\$15,054,000**
- **Key Benefits:** High score in safety and security

Level of Support

Change Package

Appendix A Project Scoring Results

Table A-1. Project Scoring

Map ID	Project Title	Description	Location	Adjusted 2020 Cost	Safety & Security	Equitable Transportation	Multimodal Mobility	Livability and Accessibility	Economic Development	Fiscal Stewardship	Connectivity	Total
Metro RTP												
1	Enhanced Transit on C2C	Provide enhanced transit (arrivals every 15 minutes or better during most of the day) along the C2C Corridor	C2C Corridor	Funded through Expanded Service District	+0.7	+2	+1	+2	+2	+2	+2	11.7
Metro Transportation Investment Bond Refinement												
2	181 st Avenue Improvements	Adding complete sidewalks from I-84 to San Rafael, widening from I-84 to Sandy, add turn lanes for Halsey and 181 st , Rockwood safety improvements (Stark to I-84), Glisan intersection improvements, Glisan to Yamhill "Complete Boulevard" design improvements, adding turn lanes to Stark and Sandy intersections.	181 st Avenue (I-84 to 182 nd Avenue)	\$41,000,000 - \$62,000,000	+1.7	+2	+2	+2	+2	+2	+1	12.7
3	182 nd Avenue Improvements	Filling sidewalk gaps from Eastwood Court to Division, seven pedestrian crossing additions or improvement along 182 nd , and intersection striping and intersection lighting improvements at 182 nd and Division	182 nd Avenue (181 st Avenue to Highland Drive)		+1.7	+2	+2	+2	+2	+2	+1	12.7
City of Gresham TSP												
4	Powell and Division/ 182 nd Avenue Improvements	Add a second westbound left turn lane at Division, add northbound and southbound double left-turn lanes and through lanes at Powell, and add transit/enhanced transit corridor supportive projects.	Powell Boulevard/ 190 th Avenue Intersection	\$2,093,000	+1	0	+1	+0.5	+2	+2	0	5.5
Pleasant Valley TSP Refinement												
5	190 th /Highland Bridge Replacement	Four-lane bridge replacement with sidewalks and bike facilities as well as a seismic upgrade.	190 th Avenue/ Highland Drive	\$10,210,000 - \$16,398,000 *Dependent on selected alternative	+1	0	+1	+2	+2	+2	+2	10
6	SE 190th Drive Improvements	 Widen 190 th Drive from Powell Boulevard to Cheldelin Road. Provide 5-lane vehicle cross-section, bicycle lanes, landscape strip, and sidewalks. Signalize or provide roundabouts for 190 th at Giese Road, Butler Road, Richey Road, and Cheldelin Road.	SE 190th Avenue (Powell Boulevard to Cheldelin Road)	\$32,019,000 *Not Including Right-of-Way	+1.7	0	+2	+2	+2	+2	+2	11.7
7	Giese Road Extension & Improvements	 Extend Giese Road from Foster Road to 182nd Avenue. Widen Giese Road from 182nd Avenue to 190th Drive. Provide 3-lane vehicle cross-section, bicycle lanes, landscape strip, and sidewalks.	Giese Road (Foster Road to 190th Drive)	\$22,714,000 + 2 Stream Crossings *Not Including Right-of-Way	+0.3	0	+1	+2	+2	+1	0	6.3
8	Pleasant Valley 172nd Avenue Extension & Improvements	 Extend 172 nd Avenue from Foster Road to Giese Road. Widen 172 nd Avenue from Foster Road to Cheldelin Road. Provide 3-lane vehicle cross-section, bicycle lanes, landscape strip, and sidewalks.	172nd Avenue (Giese Road to Cheldelin Road)	\$13,020,000 + 1 stream crossing *Not Including Right-of-Way	+0.3	0	+1	+2	+2	+1	+1	7.3
9	172 nd /Foster Roundabout	Convert intersection to single-lane roundabout with eastbound bypass right-turn lane to improve safety and ease traffic congestion.	172 nd Avenue/ Foster Road	\$4,118,000	+1.7	0	+0.5	+1.5	+1	+2	0	6.7

Map ID	Project Title	Description	Location	Adjusted 2020 Cost	Safety & Security	Equitable Transportation	Multimodal Mobility	Livability and Accessibility	Economic Development	Fiscal Stewardship	Connectivity	Total
10	Foster Road Improvements	 Widen Foster Road from 172 nd Avenue to Cheldelin Road. Provide 3-lane vehicle cross-section, bicycle lanes, landscape strip, and sidewalks.	Foster Road (172 nd Avenue to Cheldelin Road)	\$7,593,000 + 2 stream crossings *Not Including Right-of-Way	+1.7	0	+1	+1.5	+2	+1	+1	8.2
Happy Valley TSP (Continued Further Below)												
11	Clatsop Street Extension	 Extend Clatsop Street from 162 nd Avenue to 172 nd Avenue. Provide 3-lane vehicle cross-section, bicycle lanes, landscape strip, and sidewalks.	Clatsop Street (162 nd Avenue and 172 nd Avenue)	\$4,302,000	+0.3	0	+1	+2	+2	+1	0	6.3
172nd-190th Corridor Management Plan												
12	Cheldelin Extension & Road Improvements	 Extend Cheldelin Road from 172 nd Avenue to Foster Road. Widen Cheldelin Road from Foster Road to 190 th Drive. Provide 3-lane vehicle cross-section, bicycle lanes, landscape strip, and sidewalks.	Cheldelin Road (172 nd Avenue and 190 th Drive)	\$12,000,000	+1.7	0	+1	+2	+2	+1	0	7.7
13	172 nd Avenue Widening North	 Widen 172 nd Avenue to 3-lane vehicle cross-section, bicycle lanes, landscape strip, and sidewalks between 172 nd -190 th Connector to Cheldelin Road.	172 nd Avenue (Cheldelin Road to Connector)	\$10,000,000	+0.3	0	+1	+2	+2	+1	+1	7.3
14	172 nd -190 th Connector	 Provide new connector from 172 nd Avenue to 190 th Drive. Provide 5-lane vehicle cross-section, bicycle lanes, landscape strip, and sidewalks. Provide roundabouts at Cheldelin Road, Tillstrom Road, and 172 nd Avenue.	Connector (172 nd Avenue and 190 th Avenue)	\$41,958,000 *Not Including Right-of-Way	+2	+2	+2	+2	+2	+1	+2	13
15	172 nd Avenue Improvements	 Widen 172 nd Avenue from Connector to Sunnyside Road. Provide 5-lane vehicle cross-section, bicycle lanes, landscape strip, and sidewalks. Provide roundabouts at Hemrich Road and Scouter Mountain Road and signalize Troge Road and Vogel Road.	172 nd Avenue (Connector to Sunnyside Road)	\$43,000,000	+2	0	+2	+2	+2	+2	+2	12
16	Foster Road	 Provide 3-lane vehicle cross-section, bicycle lanes, landscape strip, and sidewalks from Cheldelin Road to Sunnyside Road.	Foster Road (Cheldelin Road to Troge Road)	\$28,000,000	+1.7	0	+0.5	+1	0	0	+1	4.2

Map ID	Project Title	Description	Location	Adjusted 2020 Cost	Safety & Security	Equitable Transportation	Multimodal Mobility	Livability and Accessibility	Economic Development	Fiscal Stewardship	Connectivity	Total
17	Tillstrom Road	 Widen Tillstrom Road and realign at Foster Road at a stop-controlled intersection. Provide 3-lane vehicle cross-section, bicycle lanes, landscape strip, and sidewalks.	Tillstrom Road (Foster Road to Borges Road)	\$15,054,000	+1.7	0	+0.5	+1	0	0	+1	4.2
Pleasant Valley/North Carver & Happy Valley TSP												
18	SE Sunnyside Rd East Extension	 Construct new 5-lane road with continuous left turn lane, sidewalks, bike lanes and traffic signals.	Sunnyside Road (172 nd Avenue to Foster Road)	\$13,159,000	+0.3	0	+0.5	+1	0	0	0	1.8
19	Rock Creek Boulevard Improvements	Construct new 5-lane vehicle cross-section from Sunrise Corridor Rock Creek interchange to 162 nd Avenue; Widen existing alignment of Rock Creek Boulevard to five lanes from 162 nd to 177 th Avenue. Facility improvements include continuous left turn lane, sidewalks, bike lanes and traffic signals. In addition, will improve safety on a High Injury Corridor.	Rock Creek Boulevard (Sunrise Corridor to 162 nd Avenue)	\$13,539,000	+1	0	+0.5	+1	+2	0	+2	6.5
Damascus Mobility Plan												
20	Sunrise Phase 1	<p>Phase 1:</p> <ul style="list-style-type: none"> Provides grade-separated crossing at SE 142nd Avenue and Highway 212; Includes right-in, right-out access to the interchange, roundabout construction at the existing residential access, and modification of the SE 152nd Avenue intersection to a right-in, right-out, left-in intersection. Realigns north leg of SE 135th Avenue intersection and provides backage road to SE 142nd Avenue. Installs traffic signal at intersection of backage road with SE 142nd Avenue. Upgrades OR212/224 to a Regional Boulevard with 4 vehicle lanes, median, bicycle lanes, landscape buffers, and shared-use paths on Highway 212 from SE 135th Avenue to SE 152nd Avenue. Maintains at-grade pedestrian and bicycle access at the existing SE 135th Avenue north leg to Highway 212. Includes construction, design, and right-of-way costs. Provides sidewalk and bicycle lane improvements on OR 212/224 from SE 122nd Avenue to SE 135th Avenue. Provides backage road from SE 152nd Avenue to SE 142nd Avenue. Includes modification of the SE 152nd Avenue intersection to a right-in, right-out intersection with full median on Highway 212. Connects backage road to traffic signal installed during the beginning of Phase 1 at SE 142nd Avenue and the SE 135th Avenue backage road. Provides shared-use path from Rock Creek Junction to SE 172nd Avenue. Improves OR 224 from Rock Creek Junction to Goose Hollow with sidewalks and bicycle lanes. 	OR 212 (135 th Avenue to 152 nd Avenue)	\$156,700,000 - \$182,620,000	+2	+2	+1.5	+1.5	+2	+2	0	11
21	Sunrise Phase 2	<p>Phase 2:</p> <ul style="list-style-type: none"> Constructs Sunrise Gateway facility from 142nd Avenue to 172nd Avenue. Provides bridge structure over 152nd Avenue and 162nd Avenue. Includes realignment of 162nd Avenue, new frontage road on southeast quadrant of Sunrise Gateway/162nd Avenue, and signalized at-grade intersection with SE 172nd Avenue. Constructs Sunrise Gateway facility from 122nd Avenue to 142nd Avenue. Provides 122nd Avenue intersection for forward-compatibility with complete access-control. Constructs a grade-separated bicycle and pedestrian crossing at 135th Avenue. 	Sunrise Gateway (122 nd Avenue to 172 nd Avenue)	\$326,879,000	+2	+2	+1.5	+1.5	+2	+2	0	11
22	Sunrise Phase 3	<p>Phase 3:</p> <ul style="list-style-type: none"> Constructs roundabout at Rock Creek Junction (OR 212/162nd Avenue intersection) and provides 4 vehicle lanes, median, bicycle lanes, landscape buffers, and shared-use paths on Highway 212 from 152nd Avenue to 162nd Avenue. 	Rock Creek Junction Roundabout (OR 212 at 162 nd Avenue)	\$19,998,000	+2	+2	+1.5	+1.5	+2	+2	0	11
